

These optional *HD Word* Heart Word lists can be used with any *HD Word* student who needs more practice with high-frequency words. Each unit's recommended Heart Word list includes words from the Dolch high-frequency word lists (most words come from the 2nd and 3rd grade Dolch lists), and each word also appears in the corresponding *HD Word* unit's Decodable Passage and/or Oral Reading Fluency passage. We recommend that you use Really Great Reading's Heart Word Magic approach and activities (found in *HD Word Online*'s Supplemental Resources in the Heart Word Magic tab) to teach and practice these words, as well as the Heart Word Generator and practice activities (which can be accessed through *HD Word Online*'s Supplemental Resources in the Interactive Resources tab). Suggested words are provided for Units 1-20. For Units 21-33, feel free to review and practice any previously taught words or other high-frequency words your students would benefit from.
