

Where Special Education Meets Literacy Excellence

Really Great Reading offers a suite of proven literacy programs for **K-12**, designed to deliver **high-quality instruction** and measurable **results for all learners**.

Leverage in-depth diagnostics

Simple to use diagnostics and progress-monitoring tools make pulling and interpreting data easy and straightforward

Effortlessly group students

Our Grouping Matrix™, a web-based student data management system, provides actionable reports, according to the type and depth of learners' decoding skills and deficits

Demonstrate progress towards IEP goals

Communicating IEP goals' progress is made simple, enabling seamless sharing of crucial information with educators, admins, families, and caregivers

Blend multi-sensory instruction with engaging student practice

Explicit and cumulative instruction meets students where they are, combining teacher-led learning, immersive activities, and hands-on, multisensory experiences, ensuring engagement for all

Ensure ease of use for all

Implementation is straightforward for all educators, with or without Special Education experience; any teacher or paraprofessional can use our programs with minimal prep and confidence in their success

Recognized for Excellence by EdReports with an All Green Rating

ESSA Approved for Proven Student Outcomes

Driving Results for Your Special Education Program

- **Supports diverse learners** in meeting foundational skills' goals
- **Build students' mastery** in word-level literacy by ensuring they can decode and encode words, and understand their meaning
- **Reinforces learning** through explicit, cyclical instruction and teacher modeling
- **Delivers positive error correction** through embedded strategies for immediate feedback
- **Secures inclusivity and growth** via multiple opportunities for guided and independent practice
- **Empowers students and educators** to feel successful

Make learning attainable for every student

Our literacy programs combine research-backed, easy-to-implement lessons for educators with fun, multisensory activities for students. This approach ensures an engaging experience while improving literacy outcomes for all.

Your RGR literacy partners and our reliable diagnostic tools can help you choose the right program for your students, based on their unique needs, evaluation outcomes, and goals.
