

Unlocking Potential with Really Great Reading and ELOP

Empower Every Learner in California!

At Really Great Reading, we recognize the crucial role that foundational literacy skills play in students' academic, social, and emotional development. Through the Expanded Learning Opportunities Program (ELOP) funded by the California Department of Education, we provide resources that help close literacy gaps, build a strong reading foundation, and strengthen vocabulary for learners from TK-6.

Our evidence-based programs are designed for 15-20 minutes of direct instruction and are research-backed to build strong, lifelong readers. By focusing on these essential skills, we help students succeed academically and beyond.

Discover Powerful Literacy Solutions for Your District!

Explore how Really Great Reading can elevate your ELOP and empower your students to reach their full potential!

What is ELOP?

ELOP offers enriching, student-centered programs that complement classroom learning. Whether before-school, after-school, summer, or intersession activities, ELOP supports innovative learning opportunities tailored to meet the needs of California's students, including English learners and those qualifying for free or reduced-price meals.

Why Choose Really Great Reading for Your ELOP?

Engaging Learning Experiences

Our programs engage and motivate students, making learning enjoyable while simultaneously developing crucial literacy skills, no matter the learning environment.

Outcome-Driven Solutions

RGR's evidence-based reading resources and activities drive measurable improvements in literacy skills, helping students thrive academically.

Community Collaboration

Easy to implement, Really Great Reading's programs allow for anyone to deliver high quality literacy instruction without an extensive background, enhancing learning experiences for students and educators alike!

Join Us in Making a Difference!

Together, we can ignite the power of literacy for every child through dynamic learning opportunities that inspire growth and success. Let's work together to make a lasting impact in our California communities!

Our programs create environments where educators can meet students at their current level on their foundational literacy journey. Aligned with California literacy standards, our programs engage students through multisensory, explicit, and differentiated instruction. Here's how we align with ELOP Quality Standards:

1. Safe and Supportive Environment

Really Great Reading programs create a supportive environment that addresses the developmental needs of readers of all ages. Lessons promote positive social interactions, build confidence, and provide students with critical skills to close literacy gaps effectively.

2. Diversity Access and Equity

Our programs foster inclusive classrooms by embracing diversity and equity across all dimensions of identity. **With built-in support for English Language Learners, Really Great Reading ensures every student can access high-quality literacy instruction.**

3. Clear Vision, Mission, and Purpose

Every program features an explicit scope and sequence aligned with literacy standards, ensuring a clear path to reading success and a shared purpose for educators and students alike.

4. Active and Engaged Learning

Each lesson incorporates multisensory strategies, including the use of manipulatives, to keep students actively engaged. These hands-on experiences not only make learning enjoyable but also enhance understanding by reinforcing key concepts.

5. Quality Staff

With minimal prep required and comprehensive professional development available, all educators are equipped with the tools to create a positive and engaging learning environment. User-friendly lessons and resources, like the Teacher Presentation tool, empower any staff member to deliver impactful instruction.

6. Continuous Quality Improvement

Easily accessible data tools enable educators to identify trends, address challenges, and tailor instruction, supporting continuous growth for every learner.

Really Great Reading addresses learners' needs flexibly, meeting the ELOP requirements.
