

Evidence of Growth at Every Level

The Proficiency Report: A complete picture of student proficiency over time

The Proficiency Report brings assessment results and unit performance together in one streamlined view, making it easier to understand how students are progressing in RGR programs over time and where additional support is needed.

With Beginning-, Middle-, and End-of-Program assessment data and unit-level performance insights, the report delivers a clear, actionable view of proficiency trends and instructional impact at the district, school, classroom, student, and skill level.

See every student's journey to proficiency

Understanding reading growth shouldn't require piecing together multiple reports. The Proficiency Report provides a single, clear picture of student progress, helping educators and leaders:

Monitor progress throughout the school year

Make informed instructional and program decisions

Communicate reading outcomes with confidence

Identify patterns and adjust instruction

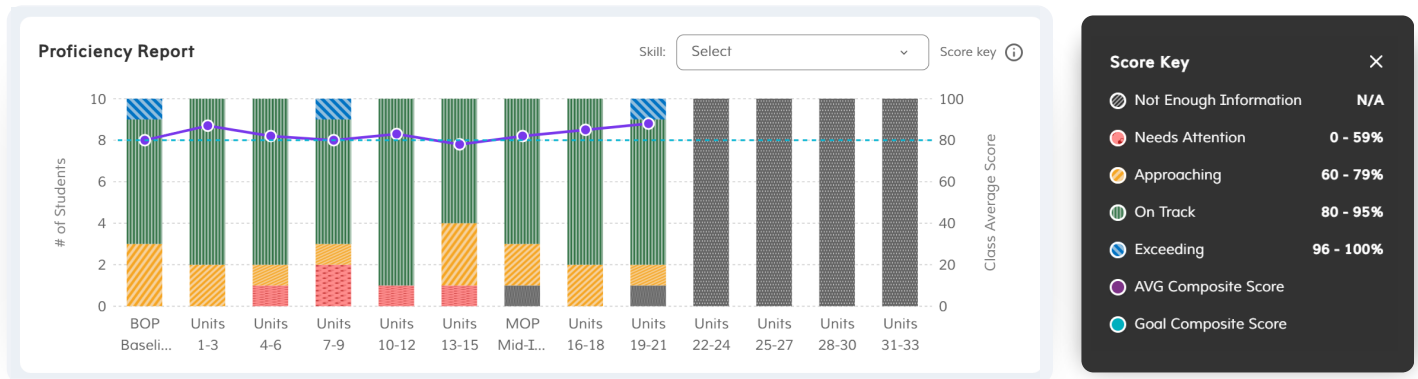

Check the Proficiency Report today on your Admin or Teacher dashboard to monitor growth and support every student's unique literacy journey.

Insights at a glance

The Proficiency Report surfaces the most important data and views needed to quickly understand student proficiency and instructional impact.

-  A unified view of assessments and unit scores
-  Beginning-, Middle-, and End-of-Program assessment data
-  Visuals showing proficiency over time, including class averages
-  Individual student performance compared to the class average
-  Teacher and administrator views that group students by performance level
-  Filters by skill and subskill for targeted analysis

Use the Proficiency Report to

- ✓ See where students are making progress over time
- ✓ Identify skills that need additional practice or support
- ✓ Compare unit work with assessment outcomes
- ✓ Plan small-group or targeted instruction
- ✓ Celebrate student proficiency and instructional success
