

Setting the Standard in Science of Reading Professional Development

Powerful and Actionable

Attendees understand how individuals learn to read and leave, equipped with actionable strategies to move the dial immediately.

Practical and Concise

We are educators who understand educators' challenges; thus, our training is practical and concise, requiring only a fraction of the time compared to other programs.

Aligned with the Science of Reading

We've done the heavy lifting by thoroughly examining the Science of Reading, distilling it down to the essentials, figuring out how to make the research actionable, and making that accessible through these engaging workshops.

Complimentary

Join the community of over 200,000 educators who have attended our informative Science of Reading workshops. Learn research-based methods at no cost to the attendee!

After the first session, I began using the phonemic awareness skill building exercises. It's amazing how quickly my students caught on, and now we use them daily."

This is the MOST informative session I've EVER attended on teaching young children to read!

I've learned more about teaching reading in this presentation than in all two of my master's degree programs. THANK YOU!!!

Thank you so much! This was one of the best professional development sessions I've ever attended. Moving towards orthographic mapping will significantly impact my readers. Thank you!

I can't believe this webinar was free! There's so much value here. I only wish I had these techniques earlier for my previous students."
